

The allocation and spending of Sports Funding money, and its impact on pupil progress and participation in sport at Alban Wood Primary School

A summary report for 2014-2015

Context

From September 2013 the Government allocated funding directly to primary schools to support the provision of quality PE/sport. Each school receives £8000 plus an extra £5 per pupil each year– here at Alban Wood that will mean around £9200 per year. This money is ring-fenced to ensure PE and sport is at the heart of school life to raise achievement for all young people.

Provision 2014-2015

It is important that we use the money allocated wisely. In order to get the best value and maximum impact for our children, we plan to use the money to:

<p>Curriculum PE: To increase subject knowledge and confidence in teaching/ leading PE</p>	<p>In line with the 2014 National Curriculum we aim to develop a PE curriculum that develops children’s motivation and skill to beat their own personal best, the desire to compete in competitions and promotes healthy lifestyles. To do this we continue to aim to enable teachers to attend a number of CPD courses across the year. To ensure this is sustainable staff will have the opportunity to regularly feedback as a whole staff through staff development meetings and through peer observations. A proportion of expenditure will be allocated to the release time of senior leaders and the PE coordinator to ensure quality feedback is given following observations.</p>
<p>School sport: To widen school sport opportunities to encourage an increased participation of children in sporting activities, in particular targeted groups</p>	<p>Last year saw increased participation in school sport for children in all three key stages and from all groups. Funding this year will continue to support this as well as the introduction of new school sport activities following pupil voice monitoring. Teachers own CPD will also benefit from this as they will have the opportunity to observe coaches lead sessions which will then impact on their own teaching of PE.</p> <p>Following these clubs, funding will enable children to take part in intra-school competitions to enable them to compete at the highest level.</p>
<p>Health and fitness: To develop children’s understanding of health and fitness whilst also improving fitness levels</p>	<p>Following the introduction of the School Fitness test last year and a whole school skipping initiative we aim to use this year’s funding to build upon the success of these by funding whole school fitness events, workshops for parents and lunchtime activities which enable all children to</p>

	<p>be active. The results from last year's fitness test will also be used to inform PE teaching and learning and regular assess opportunities will be developed to measure progress.</p>
<p>Partnership working: To continue to build upon best practice through School Sports Partnership Contract and Youth Sports Trust membership</p>	<p>The School Sports Partnership based at Rickmansworth Secondary School will deliver a specialist PE service. The partnership will provide strategic planning, monitoring and evaluation of programmes designed to enhance the provision of PE and school sport. In partnership with Rickmansworth School and other primary schools in our family, the funding will pay for the services of a PE specialist and apprentice who will visit the school on a regular basis. The specialist will also arrange tournaments and festivals giving our children opportunities to compete with children from our family of schools and beyond.</p> <p>The Youth Sports Trust membership is a national trust which provides support in a range of ways including CPD, support for PE audits and competitions. Last year we completed an audit and we have used this audit to write an action plan for 2014-2015. This audit will support us to move from 'good to outstanding' providing CPD to enhance and develop provision and teacher confidence. This will audit will also support us to create a robust assessment system to assess and track PE progress in line with the 2014 National Curriculum.</p>
<p>Resources: To continue to maintain resources for high quality PE teaching and learning</p>	<p>Funding will be used to purchase a wider range of sports equipment to use within PE lessons and with sports coaches during after school clubs. This will include a range of new PE equipment which will enable children to continue to participate in new sports as well enter competitions.</p> <p>Funding this year will particularly resource tri-golf to enable children to participate in intra-school golf competitions, yoga to enable children to continue to develop their wellbeing and orienteering resources to enable us to teach the new national curriculum objectives.</p>

How will impact be measured?

- Monitoring the number of pupils entering tournaments and the success of these entrees.
- Monitoring the number of pupils accessing both free and paid clubs.

- Equipment is fit for purpose and used more effectively to deliver high quality lessons. Observations of children and staff during PE lessons using Ofsted criteria.
- Observations of specialist coaching staff and school staff leading after school clubs.
- Increase in pupil participation in PE/sport.
- Fitness rates improved including children's awareness and understanding of healthy lifestyles. This will be measured through pupil voice and fitness tests.

Income	
Lump Sum	£8000
Additional Pupil Income, £5 per head, based on 246 children on roll as at January 2014 census	£1230
Total Anticipated Income 2013/14	£9230
Resources	
Youth Sports Trust membership	£300
Health and fitness CPD and resources	£1000
Participation in intra school events and tournaments	£2100
After school clubs for all year groups	£900
Curriculum CPD and leadership	£3500
School Sports Partnership Contract	£1600
Total Anticipated Expenditure 2013/14	£10,900 <i>(The additional £1670 will be funded from school's allocated PE budget)</i>
